

Iritrack allows, in case of emergency, to alert the Race Headquarter

The **BUTTONS** :

RED / ALARM : Push for MEDICAL HELP in EMERGENCY

GREEN / ALERT : Push to alert Rally HQ about another racer with an emergency.

For a stop more than 3 mn on accident victim, your time can be deducted.

Press on the green button by stopping you and just before restarting.

BLUE / TELEPHONE : Push to start a phone call with rally HQ

Check that the system is in working order :

Please do it before any action, especially following an incident :

- On the Iritrack version with yellow button : red diode POWER as well as the 2 yellow diodes, GPS LOCK and Iridium LOCK, all must 3 be light on in a fixed way.

- On the Iritrack version without yellow button : red diode POWER and yellow diode LOCK must be both light on in a fixed way.

In both versions, the power cable and the 2 satellite antennae must be well connected to the back of IriTrack.

If red diode POWER is switched off, please try to find the breakdown on the power supply cable. If one yellow diode LOCK is switched off or twinkling, please try to find the breakdown on the satellite antennae cables.

Use the system :

Send an alarm or an alert :

Push the red (alarm) or green (alert) button, according to the situation. **ONLY ONCE** is enough ! A message indicating automatically your race number and your exact GPS position is sent to the Race Headquarter within 3 minutes.

Check the transmission of messages :

The message is sent when green LED TRANSMIT lights on during a few seconds after having pushed on the selected button (Red or Green, according to the situation). From reception of the Alarm message (red button) the Race Headquarter will contact you through the satellite phone of the Iritrack.

Please, stay close to the IriTrack to answer to this phone call.

Have a phone call with the Race HQ :

Push the blue button and wait less than 3 minutes to be in contact with the Race Headquarter. Having pushed the blue button, green LED VOICE lights on : the call is in progress ...

Wait for an answer from the Race Headquarter.

IriTrack is equipped with a handset kit integrating a microphone and a speaker : **Do not shout, speak slowly and clearly** keeping your distance with the IriTrack box

- 1 - Spell your **race number and your name.**
- 2 - Explain your problem briefly.

Please do not say your GPS position, we already know it !

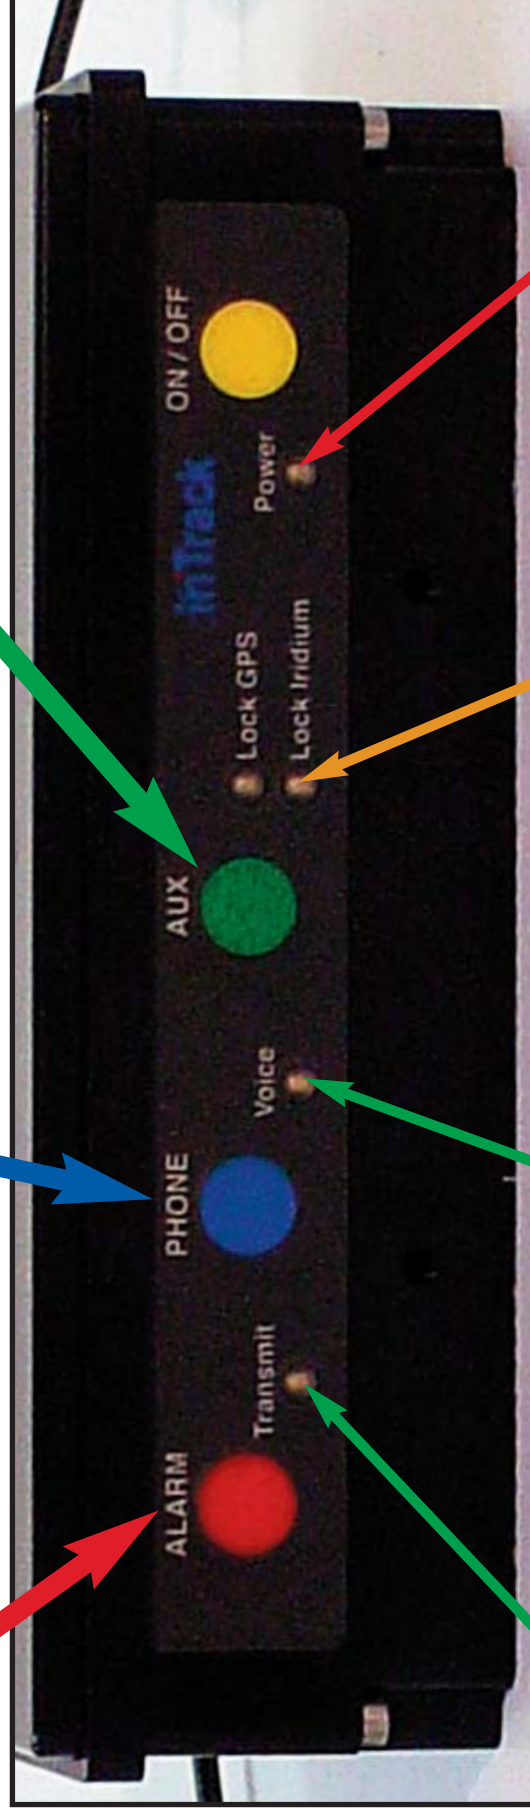

IN CASE OF EMERGENCY

- 1 - Push the red button of IriTrack. An alarm message giving your race number and your GPS position is immédiate sent to the Race HQ.
- 2 - Activate your distress beacon
- 3 - Push the blue button of IriTrack to be in contact with the Race HQ and report the situation.
